## INSTALLATION STEPS

### Wrangler JK JKU

STEP 1

STEP 2

If original bolts not long enough,  
please use substitutes bolt ③.

**STEP 1:** Remove two original flush mount torx head bolts and washers just in front of door hinge.

**STEP 2:** Use the two original bolts and washers just removed to fix the bracket on the flat side.

*If original bolts not long enough, please use substitutes bolt ③.*

**STEP3:** Repeat steps 1-2 to install the other side.
